

PENNSTATE

Penn State University's Center for Chemical Ecology  
presents

# ICE 14

Graduate Course in Insect Chemical Ecology  
Penn State University, USA, June 1 - 15, 2014

Chemical communication among insects,  
plants, animals, and pathogens

Interactions of evolutionary importance at the  
molecular,  
biochemical,  
neurophysiological,  
behavioral, and  
ecological levels

With special emphasis on plant-plant and plant-  
insect interactions, olfaction, insects and disease,  
pollination, pheromones and their applied uses,  
and techniques in chemical ecology research.

#### Invited Lecturers:

Tom Baker  
Teun Dekker  
Gary Felton  
Christina Grozinger  
Bill Hansson  
Ylva Hillbur  
Greg Krawczyk  
Christer Löfstedt  
David Hughes  
Rickard Ignell  
Emmanuelle Jaquin-Joly  
André Kessler  
Frederic Marion-Poll  
Jocelyn Millar  
Rod Peakall  
John Pickett  
Andrew Read  
Andrew Stephenson  
Matt Thomas  
John Tooker  
Jim Tumlinson  
Peter Witzgall

TO REGISTER, GO TO: <http://agsci.psu.edu/ice>

Course Credits: 7.5 ECTS
