

Enrollment now open for Spring 2022:

ENT497: Managing Landscapes for Insect Conservation

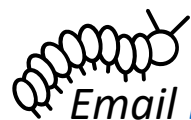

Tues/Thurs 1:35 – 2:50

Co-taught by Drs. Natalie Boyle and Christina Grozinger

In this class, you will:

- Discover how essential insects are for a healthy planet
- Learn how to monitor, manage and support insect populations
- Explore strategies for habitat restoration that improve insect abundance, diversity and ecosystem balance

Email Natalie.Boyle@psu.edu for more information!
